April 9, 2008

Dear Families of the Ezra H. Baker School:

This call is to alert you to a situation that occurred at our school this morning.

A student brought what appeared to be a hollowed out grenade to school in his backpack. He told his teacher, who alerted me immediately. I removed the backpack from the building, and called local fire and police who responded immediately. Students were evacuated to the rear of the building as a precaution.

Authorities determined that there was no danger. Students reentered the building and carried on with their day. Please know that we will deal with this infraction fairly but strongly. Please remember to check your child's backpack before he/she leaves for school.

As always, thank you for your help and support.
