

Dennis-Yarmouth Regional High School provides a wide range of educational opportunities for all of our students. We have the college preparatory classes, honors level courses and the *Advanced Placement* classes necessary for academic success. If students want a class we don't offer in our school, they can take the course online through the Virtual High School. Our sports teams, clubs and other after school activities provide students with options to pursue individual interests while they also learn the teamwork skills necessary for success in the workplace. Students can balance classroom academics with internships in the community so they can see how their knowledge is put into practice in the workplace. We prepare our students intellectually, physically and socially for their roles as educated and responsible citizens.

Technology: Dennis-Yarmouth Regional High School has the technology necessary for success in the 21st century. Our school features contemporary science labs, computers in every classroom, over 60 classroom SmartBoards, 5 computer labs, and library computer lab. This year, all 8th, 9th, 10th and 11th graders have iPads at D-Y. We have the teachers and the technology needed to prepare students for their futures.

Virtual High School: Want to take classes like Animal Behavior and Zoology, Criminology, DNA Technology, Engineering Principles, Forensic Science, Music Composition, Pre-veterinary Medicine, or one of over 150 other online courses? Then join our Virtual High School and take these classes online during the school day at D-Y. Your course options are virtually unlimited at Dennis-Yarmouth.
