OUR HEADQUARTERS

The N.E.E.D. (National Environmental Education Development) Collaborative operates from a former Coast Guard Station at the seaward end of North Pamet Road in Truro. Our building is within the National Seashore and is leased from the National Park Service. As a result, the building must meet safety and emergency standards required in federal buildings. Both the initial and top floors of the building have dormitory-like sleeping rooms with adjacent separate bathroom facilities on each floor and adjacent rooms for supervisors, (who sleep up or downstairs depending on the numbers of boys and girls in a particular class.) Our middle floor dining area is organized for family-style dining for the group. This same large room is used as a workshop for science project work, arts and crafts. Many indoor and evening activities take place in the front parlor.

Situated a few hundred yards from the Atlantic Ocean, overlooking the head of the Pamet River, adjacent to a small kettle pond and fronted by mature vegetated sand dunes, the area allows staff to direct a wide variety of environmental studies.

REMINDER TO FAMILIES: Make sure you make arrangements to have your child picked up at the school by 12:00 noon on Friday.

FOOD MENU

Supplies for our kitchen are furnished through the Food Service Director of a Collaborative District. Menu planning and food preparation are performed by our professional cook and staff. Whenever possible students may help under the direction of the adult staff on-site.

Food service is buffet-style. We do our best to take care of students on any medically required diet (ex: milk, peanut allergy).

GENERAL SCHEDULE

Our resident staff and your child's teacher will plan the seashore week by choosing from many possibilities including:

a beach walk	pond studies
a night walk	evening program speakers
bog and salt marsh studies	Nat'l Seashore trail hikes
Provincetown Museum & Monument	

Since our exact schedule will depend on the weather, special interests of that class and unexpected happenings such as the prehistory dig or a whale release, we can not furnish a day by day schedule in advance of the visit.
