### Service Comments

**Tech Comment:** Evidence of termite activity found in room 302. Termite shelter tubes found between "six age" and wall near exterior door. Room 302 abutted courtyard. Termite swarmer wings found in kitchen storage area at windows at wash machine area. Current sentricon service is a partial treatment to gym area. Kitchen and room 302 are outside the covered areas. Inspected exterior areas of room 302 and kitchen. No shelter tubes or termite activity observed. Checked accessible termite bait stations. No current activity found though evidence of past feeding noted. Indoor and outdoor ipm plans have expired and need to be updated before any pesticide application can be made
