## STUDENT DISCIPLINE

The School Committee believes that all students deserve every opportunity to achieve academic success in a safe, secure learning environment. Good citizenship in schools is based on respect and consideration for the rights of others. Students will be expected to conduct themselves in a way that the rights and privileges of others are not violated. They will be required to respect constituted authority, to conform to school rules and to those provisions of law that apply to their conduct.

Each Principal shall include prohibited actions in the student handbook or other publication to be made available to students and parents/guardians.

Principals and staff shall not use academic punishment of any form as a consequence to inappropriate behaviors/actions by students.

The Principal may, as a disciplinary measure, remove a student from privileges, such as extracurricular activities and attendance at school-sponsored events, based on the student's misconduct. Such a removal is not subject to the remainder of this policy, law, or regulation.

The Superintendent shall provide each Principal with a copy of the regulations promulgated by DESE and shall have each Principal sign a document acknowledging receipt thereof, which shall be placed in their personnel file.

### Suspension

In every case of student misconduct for which suspension may be imposed (except for offenses referenced in the note at the end of this policy), a Principal shall consider ways to re-engage the student in learning; and avoid using long-term suspension from school as a consequence until alternatives have been tried. Alternatives may include the use of evidence-based strategies and programs such as mediation, conflict resolution, restorative justice, and positive behavioral interventions and supports.

### **Notice of Suspension:**

Except for emergency removal or an in-school suspension of less than 10 days, a Principal must provide the student and the parent/guardian oral and written notice, and provide the student an opportunity for a hearing and the parent/guardian an opportunity to participate in such hearing

before imposing suspension as a consequence for misconduct. The Principal shall provide both oral and written notice to student and parent/guardian in English and in the primary language of the home if other than English. The notice shall include the rights enumerated in law and regulation. To conduct a hearing without a parent/guardian present, the Principal must be able to document reasonable efforts to include the parent/guardian.

### **Emergency Removal**

A Principal may remove a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the Principal's judgment, there is no alternative available to alleviate the danger or disruption. The Principal shall immediately notify the Superintendent in writing of the removal including a description of the danger presented by the student.

The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the Principal shall: Make immediate and reasonable efforts to orally notify the student and the student's parent/guardian of the emergency removal, the reason for the need for emergency removal, and the other matters required in the notice as referenced in the applicable regulation; Provide written notice to the student and parent/guardian as required above; Provide the student an opportunity for a hearing with the Principal that complies with applicable regulations, and the parent/guardian an opportunity to attend the hearing, before the expiration of the two (2) school days, unless an extension of time for hearing is otherwise agreed to by the Principal, student, and parent/guardian; Render a decision orally on the same day as the hearing, and in writing no later than the following school day, which meets the requirements of applicable law and regulation.

A Principal shall also ensure adequate provisions have been made for the student's safety and transportation prior to removal.

### **In School Suspension – not more than 10 days consecutively or cumulatively**

The Principal may use in-school suspension as an alternative to short-term suspension for disciplinary offenses.

The Principal may impose an in-school suspension for a disciplinary offense under this provision, provided that the Principal follows the process set forth in regulation and the student has the opportunity to make academic progress as required by law and regulation.

### **Principal's Hearing – Short Term Suspension of up to 10 days**

The hearing with the Principal shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, the Principal shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information.

The student also shall have an opportunity to present information, including mitigating facts, that the Principal should consider in determining whether other remedies and consequences may be appropriate as set forth in law and regulation.

The Principal shall provide the parent/guardian, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal should consider in determining consequences for the student.

The Principal shall, based on the available information, including mitigating circumstances, determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed.

The Principal shall notify the student and parent/guardian of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as required by law and regulation. The determination shall be in writing and may be in the form of an update to the original written notice.

If the student is in a public preschool program or in grades K through 3, the Principal shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension, before the short-term suspension takes effect.

**Principal's Hearing – Long Term Suspension of more than 10 days but less than 90 days (consecutive or cumulative)**

The hearing with the Principal shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, in addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following rights: In advance of the hearing, the opportunity to review the student's record and the documents upon which the Principal may rely in making a determination to suspend the student or not; The right to be represented by counsel or a lay person of the student's choice, at the student's/parent's/guardian's expense; The right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so; The right to cross-examine witnesses presented by the school district; The right to request that the hearing be recorded by the Principal, and to receive a copy of the audio recording upon request. If the student or parent/guardian requests an audio recording, the Principal shall inform all participants before the hearing that an audio record will be made and a copy will be provided to the student and parent/guardian upon request.

The Principal shall provide the parent/guardian, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal should consider in determining consequences for the student.

The Principal shall, based on the evidence, determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension as required by law and regulation, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The Principal shall send the written determination to the student and parent/guardian by hand-delivery, certified mail, first-class mail, email to an address provided by the parent/guardian for school communications, or any other method of delivery agreed to by the Principal and the parent/guardian.

If the Principal decides to suspend the student, the written determination shall: Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing; Set out the key facts and conclusions reached by the Principal; Identify the length and effective date of the suspension, as well as a date of return to school; Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school as required by law and regulation; Inform the student of the right to appeal the Principal's decision to the Superintendent or designee, but only if the Principal has imposed a long-term suspension. Notice of the right of appeal shall be in English and the primary language of the home if other than English, or other means of communication where appropriate, and shall include the following information: The process for appealing the decision, including that the student or parent/guardian must file a written notice of appeal with the Superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent/guardian may request and receive from the Superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days; and that the long-term suspension will remain in effect unless and until the

Superintendent decides to reverse the Principal's determination on appeal.

If the student is in a public preschool program or in grades K through 3, the Principal shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension before the suspension takes effect.

### **Superintendent's Hearing**

A student who is placed on long-term suspension following a hearing with the Principal shall have the right to appeal the Principal's decision to the Superintendent.

The student or parent/guardian shall file a notice of appeal with the Superintendent within the time period noted above (see Principal's hearing – Suspension of more than 10 days). If the appeal is not timely filed, the Superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.

The Superintendent shall hold the hearing within three (3) school days of the student's request, unless the student or parent/guardian requests an extension of up to seven (7) additional calendar days, in which case the Superintendent shall grant the extension.

The Superintendent shall make a good faith effort to include the parent/guardian in the hearing. The Superintendent shall be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that would allow the parent/guardian and Superintendent to participate. The Superintendent shall send written notice to the parent/guardian of the date, time, and location of the hearing.

The Superintendent shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The

Superintendent shall arrange for an audio recording of the hearing, a copy of which shall be provided to the student or parent/guardian upon request. The Superintendent shall inform all participants before the hearing that an audio record will be made of the hearing and a copy will be provided to the student and parent/guardian upon request. The student shall have all the rights afforded the student at the Principal's hearing for long-term suspension.

The Superintendent shall issue a written decision within five (5) calendar days of the hearing which meets the requirements of law and regulation. If the Superintendent determines that the student committed the disciplinary offense, the Superintendent may impose the same or a lesser consequence than the Principal, but shall not impose a suspension greater than that imposed by

the Principal's decision. The decision of the Superintendent shall be the final decision of the school district with regard to the suspension.

### **Expulsion**

Expulsion is defined as the removal of a student from school for more than ninety (90) school days, indefinitely, or permanently as allowed by law for possession of a dangerous weapon; possession of a controlled substance; assault on a member of the educational staff; or a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a Principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school.

Any student expelled from school for such an offense shall be afforded an opportunity to receive educational services and make academic progress.

### **Academic Progress**

Any student who is suspended or expelled shall have the opportunity to earn credits, make up assignments, tests, papers, and other schoolwork as needed to make academic progress during the period of his or her removal from the classroom or school. The Principal shall inform the student and parent/guardian of this opportunity in writing, in English and in the primary language of the home, when such suspension or expulsion is imposed.

Any student who is expelled or suspended from school for more than ten (10) consecutive days, whether in school or out of school, shall have an opportunity to receive education services and make academic progress toward meeting state and local requirements, through the school-wide education service plan.

The Principal shall develop a school-wide education service plan describing the education services that the school district will make available to students who are expelled or suspended from school for more than ten (10) consecutive days. The plan shall include the process for notifying such students and their parents/guardians of the services and arranging such services. Education services shall be based on, and be provided in a manner consistent with, the academic standards and curriculum frameworks established for all students under the law.

The Principal shall notify the parent/guardian and student of the opportunity to receive education services at the time the student is expelled or placed on long-term suspension. Notice shall be provided in English and in the primary language spoken in the student's home if other than English, or other means of communication where appropriate. The notice shall include a list of

the specific education services that are available to the student and contact information for a school district staff member who can provide more detailed information.

For each student expelled or suspended from school for more than ten (10) consecutive days, whether in-school or out-of-school, the school district shall document the student's enrollment in education services. For data reporting purposes, the school shall track and report attendance, academic progress, and such other data as directed by the Department of Elementary and Secondary Education.

### **Reporting**

The school district shall collect and annually report data to the DESE regarding in-school suspensions, short- and long-term suspensions, expulsions, emergency removals, access to education services, and such other information as may be required by the DESE.

The Principal of each school shall periodically review discipline data by selected student populations, including but not limited to race and ethnicity, gender, socioeconomic status, English language learner status, and student with a disability status in accordance with law and regulation.

Supporting Students with Disabilities and Avoiding the Discriminatory Use of Student Discipline under Section 504 of the Rehabilitation Act of 1973 and Questions and Answers Addressing the Needs of Children with Disabilities and the Individuals with Disabilities Education Act's (IDEA's) Discipline Provisions.

## **STUDENT DRESS CODE**

The responsibility for the dress and appearance of the students will rest with individual students and parents/guardians.

They have the right to determine how the student will dress providing that attire is not destructive to school property, complies with requirements for health and safety, and does not cause disorder or disruption. The administration is authorized to take action in instances where individual dress does not meet the stated requirements.

This does not mean that student, faculty, or parent groups may not recommend appropriate dress for school or special occasions. It means that students will not be prevented from attending school or a school function, or otherwise be discriminated against, so long as their dress and appearance meet the requirements set forth above.

No position may be created without the approval of the School Committee. The District's goal is to employ and retain personnel who are motivated, will strive always to do their best, and are committed to providing the best educational environment for the children

It will be the duty of the Superintendent to see that persons considered for employment in the schools meet all certification requirements and the requirements of the Committee for the type of position for which the nomination is made.

The following guidelines will be used in the selection of personnel:

1. There will be no discrimination in the hiring process due to race, color, sex, sexual orientation, gender identity, religion, disability, age, genetic information, active military/veteran status, marital status, familial status, pregnancy, or pregnancy-related condition, homelessness, ancestry, ethnic background, national origin, or any other category protected by state or federal law.
2. The quality of instruction is enhanced by a staff with a wide variation in background, educational preparation, and previous experience.
3. The administrator responsible for the hiring of a staff member (in the case of District-wide positions, for the position of Principals, it is the Superintendent; for building-based personnel, it is the Principal) is directed to establish a representative screening committee. The administrator has the final say in determining who will be hired but it is expected that the screening committee's input will be a factor in the decision. For those positions where the hiring authority rests with the School Committee, a representative screening committee may be established by the School Committee, or the School Committee may direct the Superintendent to establish a screening committee to assist the Superintendent in making their recommendation to the School Committee.

## **EQUAL EDUCATIONAL OPPORTUNITIES**

In recognition of the diversified characteristics and needs of our students and with the keen desire to be responsive to them, the School Committee will make every effort to protect the dignity of the students as individuals. It also will offer careful consideration and sympathetic understanding of their personal feelings, particularly with reference to their \*race, color, sex, sexual orientation, gender identity, religion, disability, age, genetic information, active military/veteran status, marital status, familial status, pregnancy, or pregnancy-related condition, homelessness, ancestry, ethnic background, national origin, or any other category protected by state or federal law.

To accomplish this, the Committee and its staff will make every effort to comply with the letter and the spirit of the Massachusetts equal educational opportunities law which prohibits discrimination in public school admissions and programs.

This will mean that every student will be given equal opportunity in school admission, admissions to courses, course content, support services, and extracurricular and athletic activities.

All implementing provisions issued by the Board of Elementary and Secondary Education in compliance with this law will be followed.

SCHOOL CHOICE

It is the policy of this School District to admit non-resident students under the terms and conditions of the Interdistrict School Choice Law and under the following local conditions:

1. That by May 1 of every school year, the administration will determine the number of spaces in each school available to choice students.
2. That by June 1 of every school year, if consideration is being given to withdraw from the provisions of the choice law, a public meeting will be held to review this decision.
3. That the selection of non-resident students for admission be in the form of a random drawing when the number of requests exceeds the number of available spaces. There will be two drawings for this purpose. The first will take place during the last week of the current school year but no later than July 1st. The second will be conducted during the week immediately preceding the opening of the next school year and will be based on the possibility of unexpected additional openings.
4. Any student who is accepted for admission under the provisions of this policy is entitled to remain in the District until graduation from high school except if there is a lack of funding of the program.
5. The School Committee affirms its position that it shall not discriminate in the admission of any child on the basis of \*race, color, sex, sexual orientation, gender identity, religion, disability, age, genetic information, active military/veteran status, marital status, familial status, pregnancy, or pregnancy-related condition, homelessness, ancestry, ethnic background, national origin, or any other category protected by state or federal law, academic performance or proficiency in the English language.

## FISCAL MANAGEMENT GOALS

As the trustee of local, state, and federal funds allocated for use in public education, the Committee will use these funds wisely in pursuit of the district's goals.

The quantity and quality of the district's educational programs are dependent on the effective, efficient management of allocated funds. Achievement of the district's purposes can best be achieved through excellent fiscal management.

It is imperative that the educational program be held of paramount importance. Decisions made due to resource limitations must center on the educational goals of the district.

This prioritization will be incorporated into all aspects of district management and Committee decision making.

Regarding the district's fiscal management, it is the Committee's intent:

1. To allocate public funding, centering equity while achieving the greatest educational returns and the greatest contributions to the educational program in relation to dollars expended.
2. To engage in thorough advance planning, with staff and community involvement, in order to develop budgets.
3. To advocate for levels of funding that will provide high quality education for all students.
4. To support the use of the best techniques for budget development and management.
5. To provide timely and appropriate information to the community.

## REGIONAL SCHOOL DISTRICT ANNUAL BUDGET

The annual budget is the financial expression of the goals to the School Committee in meeting the needs of all students.

The budget then requires an orderly and cooperative effort by the Committee, the staff, and the regional community to achieve the goals of the district.

Public school budgeting is regulated and controlled by legislation, state regulation, regional agreement, and local Committee policy. The operating budget will be prepared and managed in line with the above.

In developing a budget, care shall be taken to make the documents associated with the budget clear and understandable to School Committee members, to municipal officials of member communities, and to the general public.

At the discretion of the Finance Subcommittee, an informal public information meeting may be held to solicit input from the general public. In accordance with the District Agreement, a public hearing shall be held prior to the adoption of the Final Operating and Maintenance Budget by the District Committee. The Superintendent and members of the Finance Subcommittee will make every effort to fully inform all member communities and their officials of the budget plans of the District.

The budget shall be in compliance with the foundation budget. It is acknowledged that the foundation budget reflects the minimum recommended spending for a District, and excludes transportation costs, debt service costs, and costs associated with the acquisition of fixed assets. The aforementioned items must, therefore, be budgeted in addition to the foundation budget, and funds to support those expenditures must be raised from the member communities, after the use of any offsetting revenues received from the state.

Assessments to member communities shall be made in compliance with the foundation budget, which may, in certain instances, differ from the apportionment under the District Agreement. When there is a conflict, state law shall prevail. In assessing for expenditures which are excluded from the foundation budget, the District Agreement shall determine the apportionment of assessments after the District Committee has applied all applicable state aid. The District Agreement notwithstanding, there shall be no requirement for the annual operation and maintenance budget for the District to be adopted prior to the receipt of funding estimates from the state.

The Superintendent will serve as budget officer but they may delegate portions of this responsibility to members of their staff, as they deem appropriate. The three general areas of responsibility for the Superintendent as budget officer are budget preparation, budget presentation, and budget administration. A budget is a spending plan, which is developed well in advance of the fiscal year. Circumstances may occur which necessitate changing spending

priorities and redirecting funds within the budget accordingly. Revisions to the budget may be made from time to time by the Committee, upon the recommendation of the Superintendent.

The annual budget for each school operated by the District shall reflect the priorities established in the Annual School Improvement Plan.

## BUDGET - APPORTIONMENT OF EXPENSES FOR REGIONAL SCHOOLS

The Regional District School Committee shall annually determine the amounts necessary to be raised, after deducting the amount of aid such district is to receive by state formula, to maintain and operate the District school or schools during the next fiscal year, and amounts required for payment of debt and interest incurred by the District which will be due in the said year, and shall apportion the amount so determined among the several municipalities in accordance with the terms of the agreement.

The amounts so apportioned for each municipality shall be certified by the Regional School District treasurer to the treasurers of the several municipalities within thirty days from the date on which the annual budget is adopted by a two-thirds vote of the School Committee, but no later than April thirtieth.

The Regional School District treasurer shall include in the certification to each municipality a statement setting forth the amount which the District is to receive by state formula for the ensuing fiscal year and the proportionate share of such aid for such municipality.

In addition to amounts appropriated for long-term debt service, school lunches, adult education, student transportation, and tuition revenue, each municipality that belongs in the Regional School District shall annually appropriate for the support of the Regional School District, an amount equal to but not less than the sum of the minimum required local contribution.

Notwithstanding the provisions of the Regional School District agreement, each member municipality shall increase its contribution to the Regional District each year by the amount indicated in that district's share of the municipalities' minimum regional contribution in that fiscal year. The District shall appropriate the sum of the minimum regional contributions of its member districts as well as all state school aid received on behalf of member municipalities. The District may choose to spend additional amounts; such decision shall be made and such amounts charged to members according to the District's required agreement.

Except as required by General Law, each school district may determine how to allocate funds appropriated for the support of public schools without regard to the categories employed in calculating the foundation budget.

## BUDGET DEADLINES AND SCHEDULES

Preparation of the annual budget will be scheduled in stages throughout the school year with attention to certain deadlines established by law and charter.

The calendar year for budget preparation will be determined by calculating backwards from the final adoption date as determined by state law and/or regional agreement.

The School Committee will also observe the statutory requirement of holding a public hearing on the proposed budget not less than seven days after the notice for this hearing has been published in a local newspaper.

Whatever dates are assigned, the final date for the submission of the budget to the Select Board will be arranged cooperatively with the School Committee and finance committee.

## BUDGET PLANNING

A sound budget development process must be established to ensure that the annual operating budget accurately reflects the District's goals. The budget is a financial planning tool that grounds itself in careful analysis of student achievement, enrollment, mandated services, and community values to allocate resources towards the goals set by the Committee. The first priority in the development of an annual budget will be the educational welfare of the children in our schools.

The Committee also holds in balance the valid interest of the taxpayers.

The budget document shall reflect all sources of revenue. It shall clearly explain how those funds will be used.

In the budget planning process for the school district, the Superintendent will:

- 1) Engage in thorough advance planning, with staff and community involvement, in order to develop budgets and guide expenditures in a manner that will achieve the greatest educational returns and contributions to the educational program in relation to dollars expended.
- 2) Establish levels of funding that will provide high quality education for all students.
- 3) Use the best available techniques for budget development and management.

The Superintendent will have overall responsibility for budget preparation, including the construction of, and adherence to, a budget calendar which will be shared publicly with the community.

**NOTE: Include in this category statements on the general plan for budget development and on staff/student/public participation in the process (but not the official hearings). If advisory committees take part, this might be included in the policy, with details on their functioning presented as an accompanying regulation.**

## BUDGET ADOPTION PROCEDURES FOR REGIONAL SCHOOLS

The regional district budget is adopted by the School Committee at the Function Code level. Function Code should represent appropriate levels of transparency for the Committee to oversee goal implementation while allowing for administrative day-to-day work. Function Code will be agreed upon by the Committee and administration.

All revenue sources are subject to adoption by the School Committee.

The annual regional district budget as adopted by two-thirds vote of all members of the Regional School District Committee shall require the approval of two-thirds of the local appropriating authorities of the member municipalities.

In the event the regional school budget is not approved by at least two-thirds of the member municipalities as required, the Regional School District Committee shall have thirty days to reconsider, amend, and resubmit a budget on the basis of the issues raised.

## REGIONAL SCHOOL DISTRICT BUDGET TRANSFER AUTHORITY

In keeping with the need for periodic reconciliation of the District budget, the Regional School District Committee will consider requests for transfers of funds between function codes as they are recommended by the Superintendent. The Committee wishes to be kept abreast of the need for these adjustments so that it may act promptly and expedite financial record keeping for the school district.

All requests for transfers between function codes as approved during the annual budget deliberation must be submitted to the full School Committee for approval as part of the School Business Officer's quarterly report at the School Committee's finance subcommittee or at the business meetings of the School Committee; approval of transfers must be done by the full Committee.

All funds in the general account not expended by the close of the fiscal year will be placed in an excess and deficiency fund that shall not exceed five percent of the operating budget and its budgeted capital costs for the succeeding fiscal year. Any added funds exceeding five percent shall be returned to the member communities to reduce their assessments in accordance with law.

The superintendent will submit for School Committee approval spending plans at the same cost center level as the district budget.

The Superintendent will be responsible for coordinating the development of proposals for all specially funded projects and for keeping the Committee apprised and updated on all such projects.

The Superintendent shall ensure the district has and follows a written set of procedures in grant administration that aligns with state and federal laws and regulations.

Because of this outpouring of support, we were able to help 45 families in need during the holidays. Early in December, a general message was sent out to our entire school population inviting families to email me if they could use support. Each family that responded received \$300.00 in gift cards split between grocery and department stores. The Dennis Police department donated an array of toys as well, so each family was able to choose a toy when they picked up their gift cards.

As a school, we are so thankful to these organizations for their generous support of our students and families. We are grateful for the opportunity to distribute this much needed help to our families on behalf of a supportive, caring community.

Sincerely,

Superintendent Woodbury informed the Committee that the Policy Review Subcommittee met recently to review several policies. Those policies are now for review by the full committee at this meeting. The subcommittee recommended adoption of the MASC-recommended policy updates. ## Assistant Superintendent Report – David Flynn

### Preliminary FY2024 Budget Proposal

Mr. Flynn referenced the Preliminary FY2024 Budget Proposal PowerPoint presentation, a copy of which was given to each member prior to the meeting. Because Massachusetts has a newly elected governor the state has an additional five weeks to release the Governor's proposed budget (March 1, 2023). The Governor's proposed budget includes Chapter 70 Aid, Charter School Aid; Transportation Aid; School Choice Estimate; Foundation Enrollment; Minimum Required Contribution from Towns; Charter School Estimate; School Choice Assessment; and Special Education Assessment. Mr. Flynn said that the budget prioritizes level service with current staffing. He noted that the initial budget increases would include salaries (the teachers' union contract expires 6-30-23); Special Education Out of District Tuition has had a 14% increase for FY2024. Regarding transportation, the FiveStar bus contract expires 6-30-23 and there is a SPED driver shortage state-wide. There may be increases in both health and property insurance. The cost of utilities at the new school are unknown at this time. At this time Mr. Flynn is proposing a 6.16% increase in the budget. He will have more information for the Committee at the next meeting in 2 weeks. Discussion followed; Superintendent Woodbury said the budget can go down but once it is voted it cannot go up.
