ENC  
2 B 1

- D. Bargaining unit members shall schedule parent conferences at the request of the administration. Such conferences will be held at a mutually agreeable time. Additional conferences at the request of a parent or on the bargaining unit members own initiative shall be scheduled at a mutually agreeable time.
- E. In order to provide greater flexibility to both the district and academic coaches, the district may modify the work year of bargaining unit members who serve as academic coaches in order to take into account their differing schedules and demands, subject to the following conditions: the number of workdays shall remain no more than one hundred eighty-five (185); where the district modifies the work year of an academic coach to include time off during normal school days and reschedules those days during summer or vacation periods, such modification shall be by mutual agreement of the academic coach and the district; and, the academic coach will receive at least one (1) month's notice of the change in work year.
- F. Bargaining unit members new to the district shall attend no more than two extra days before the start of school for orientation purposes.

**Section 6.4. Bargaining Unit Members' Work Day.**

- A. The bargaining unit member's work day will extend fifteen (15) minutes beyond the student's school day as set forth below. At least five (5) of those minutes will occur prior to the beginning of the student day. With advance notification, the administration may adjust the starting and ending times for professional staff on an annual basis, however, no modification or adjustment will increase the length of the work day for professional staff. The student's school day shall commence at the tardy bell and end at dismissal time and shall be as follows:

(1) Elementary Schools	Six (6) hours and fifteen (15) minutes.
(2) Middle Schools	Six (6) hours and fifteen (15) minutes.
(3) High School	Six (6) hours and forty-two (42) minutes.

High school teachers will receive an annual stipend of Four Hundred Dollars (\$400.00) to be paid in a lump sum at the end of the school year.

- B. Bargaining unit members are expected to remain as long after the students' dismissal time as is necessary to carry out the professional responsibilities expected of them. Where determined by the bargaining unit members involved or referred by the principal, bargaining unit members will be available for extra help and assistance to students and performing IDEA team evaluations. In addition, the Administration may schedule faculty meetings for the purpose of discussing relevant educational matters. Such meetings shall normally not exceed one (1) hour in duration. There will be no more than twenty-eight (28) such meetings per school year except in extraordinary circumstances. Bargaining unit members will have input as to whether faculty meetings are scheduled for the a.m. or p.m. Any staff members who miss a faculty, district

or department meeting shall be responsible for familiarizing themselves with any materials covered during the meeting(s) that they miss and shall complete and submit to the building principal a meeting absence form. The parties will discuss and agree on the contents of the meeting absence form.

- C. Bargaining unit members will have a duty-free lunch period of at least thirty (30) minutes. Every effort will be made to schedule bargaining unit members' lunch periods during student lunch time. Where bargaining unit members' lunch periods cannot be scheduled during student lunch time, the assignment of bargaining unit members' lunch periods to other times will be made on a fair and equitable basis.
- D. Teachers shall have at least 250 minutes of preparation time weekly. It is understood and agreed that the preparation period must be at least thirty (30) minutes in duration in order to count toward the weekly 250 minutes provided. Teachers shall receive a preparation period in at least four out of five school days per week.

The purpose of the preparation period is to enable teachers to enhance the performance of their assigned duties and to use their professional skills. Work performed during preparation time must be directly related to the teachers' assigned responsibilities. Travel time shall not be used as preparation time.

- E. All bargaining unit members shall attend two evening meetings per school year, including the open house.
- F. Should the Committee decide to increase the length of the student day to six (6) hours and forty-two (42) minutes at one of the District's grade 4-7 schools (either grade 4-5 school or grade 6-7 school) it shall notify the Association no later than March 1. The parties agree to open the contract for the sole purpose of negotiating the working conditions of the extended day and will meet to negotiate. It is understood by both parties that sections in addition to Article 6 may need to be part of these negotiations. Any agreement reached by the parties is subject to ratification by both parties' respective principals. It is further understood that any proposal to extend the student day in grades Pre-K-3 would need to be brought forward during regular successor negotiations.

The longer school day shall be implemented no earlier than the start of the 2020-2021 school year and shall be contingent on the additional time being specifically funded in the regional school district budget. Educators working in a school with a six hours and forty-two minute (6 hours and 42 minute) student day will receive a four thousand (\$4,000.00) dollar annual stipend. If implementation occurs in any grades 4 through 7, then the high school shall receive the above stipend, which shall replace the \$400.00 high school stipend referenced in Section 6.4(A). Beginning in FY21 the high school teachers will receive a \$1,000 stipend to replace the \$400 high school stipend referenced in Section 6.4(A).

When the above is implemented and funding is received, the Committee will agree to the following language:

The School Committee will schedule six (6) early release days per school year of one and one-half (1 ½) hours each so that teachers can work on professional development and/or professional collaboration. If this section is not implemented by FY23 then the language will sunset at that time, unless otherwise negotiated.

### **Section 6.5. Teaching Load**

- A. High School: In order to accommodate the variety of schedules and structures, the parties acknowledge that the number of teaching minutes may vary based on the schedule. In a seven period drop two schedule, the number of teaching minutes will not exceed three hundred eighteen (318) minutes in any given day, with an average of no more than two hundred sixty-five (265) minutes daily over the course of the year. Teachers will teach no more than five courses per semester. Every effort will be made to ensure that teachers will teach only four (4) out of five (5) periods per day. In the event that the schedule requires that a teacher be assigned to teach five (5) periods in only one day of the seven-day rotation, the administration will first seek volunteers. If no volunteers come forward, the administration will assign the most qualified teacher to teach five periods in one day, but only after a meeting with the affected teacher. Teachers teaching a five-period day will not be assigned Finn time on that day.

Teachers will not be required to supervise passing time during the lunch block in order to accommodate their 30-minute duty free lunch time.

If the parties to this Agreement agree to reinstate a 4 by 4 block schedule the parties acknowledge that the number of teaching minutes will not exceed two hundred ninety (290) minutes in any given day, with an average of no more than two hundred sixty-five (265) minutes daily over the course of the year.

- B. Middle School: In order to accommodate the variety of schedules and structures, the parties acknowledge that the number of teaching minutes will not exceed an average of two hundred fifty (250) minutes in any given day. Teachers will teach an average of no more than six (6) periods a day, whenever possible.
- C. Bargaining unit members may, at their request, and with the permission of the school principal, exchange any administrative duties for teaching duties on an equal time basis.
- D. A traditional teaching period does not include tutorial, exploratory, or enrichment programs which are defined and limited as follows:
1. Tutorial classes of nine (9) students or less of either an accelerated or remedial nature which the student takes in addition to his regularly scheduled subject. No teacher shall be required to teach a non-

Re: Power Outage Storm October 2021

Dear Ken:

I want to thank you so much for always being available to assist us with electrical issues. You have gone above and beyond these last few months.

You assisted us with the fire in our front generator. It was the second time it had happened in six months and you came to investigate why it was happening.

Last week during the storm you came in again to assist me with our new generator that was not functioning properly. I know you had just arrived home after a full day of storm issues and you were exhausted but you still went out of your way to assist me and making sure our school was not in danger. Lights were blinking and I knew things were not running properly but you diagnosed the situation and we felt relieved there was no imminent danger to the school.

Many thanks from me and the Dennis-Yarmouth Regional School District for all your help.

Sincerely,

Re: Power Outage Storm October 2021

Dear Deputy Chief Sawyer:

I want to thank you so much for your assistance with the electrical issue at the high school during the storm last week.

You not only came to check on it with me but you also called in the electrical inspector to make sure things were safe in the building before you went home for the evening after a long day. I was so grateful.

Many thanks from me and the Dennis-Yarmouth Regional School.

Sincerely,

Re: Power Outage Storm October 2021

Dear Mr. Walker:

On behalf of the Dennis-Yarmouth Regional School District I would personally like to thank you and your team for the outstanding job you all did during the past storm. No one really recognizes the heroes behind the scenes, however, I know firsthand what you do and how hard you all work to keep us protected during these events.

You were able to help us get full power to two of our schools that were without power so we could have school on Friday. Even though there were a few glitches in all of it we all worked together and got the job done.

I am so grateful to all of you and for your great leadership Mike.

Many thanks from the Dolphins here at DY.

Sincerely,

RE: Admin Building Construction Cost Estimate

---

Over the Summer, the District had Rowse Architects perform a preliminary investigation into the structural deficiencies and needs of the Administration Building. Their recommendations include, but are not limited to:

- New septic system
- New bathrooms
- New roof shingles
- New siding
- New windows and doors
- New gutters and downspouts
- New HVAC system
- New fire sprinklers
- Interior demolition and reconfiguration with possible addition
- Interior and exterior lighting
- Security and data cabling
- Resurface the parking lot

In order to accurately plan for the cost of these proposed renovations we will need a professional construction cost estimate performed. It is anticipated that this report will not exceed \$X,XXX.

**Motion:**

I move that the School Committee authorize the District to contract with **Rowse Architects** to perform a professional Construction Cost Estimate for the needed repairs to the administration building at a cost not to exceed \$X,XXX.

Superintendent's Report – Carol Woodbury

School Performance Reviews (PK-5)

Assistant Superintendent Maria Lopes gave a brief overview of the school performance in Grades PK-5 and introduced the principals. Carol Mahedy, Interim Principal, M.E. Small gave a brief synopsis of MCAS results. She also gave examples of working toward improvements including smaller class sizes; an interventionist; and art and music becoming full time offerings. The MES PTO raised money to buy a book vending machine; the students are very excited about this. Peter Crowell, Principal, Station Avenue Elementary gave a snapshot of the last school year. He gave a synopsis of MCAS scores. There has been an increase of 5 support teachers. There is one special educator; one EL educator; and 2 reading support teachers per grade level. He acknowledged Assistant Principal Patricia Leary's hard work in fine tuning student placement over the summer. Kevin Depin, Principal, Ezra H. Baker Innovation School gave a brief summary of MCAS scores. He then updated the Committee on the 21-22 school year. Class sizes are at 15 and students are still cohorting. He acknowledged the hard work of the coaches and classroom teachers. Student health and wellbeing are also very important. Tim Blake, Principal, Nathaniel Wixon School gave a brief synopsis of the last school year as well as a review of MCAS scores. There are now 4 reading teachers; one per team. They have reinstated RTI at the end of the day. Wixon and Mattacheese have begun having shared professional development experiences.

At the conclusion of the presentations, Superintendent Woodbury opened the meeting to questions from the Committee. Chair Landers commented that it is comparing different groups of students and MAP testing is better to see how an individual student is performing. She thanked the principals for their hard work. Marilyn

Bemis would like periodic updates; the other members expressed their thanks to the principals. Vida Morris called a point of order; she wanted to be able to ask questions of the principals; Chair Landers said there would be public comment later on in the agenda.
